### IN AID OF THE LEPER BAND.

Two Stereopticon lectures by Captain Cochrane, U. S. M. C.

As previously stated in the Bulletin, Captain Cochrane, commanding the marine corps of the U. S. cruiser Philadelphia, will deliver two grand stereopticon lectures at the drill shed. The first will be on Saturday evening next. There will be music by the Government and the Philadelphia hands. The Kamehameha Glee Club will render selections. C. Hedemann will manipulate the lantern, and magnificent views personally selected in Paris, London, New York and San Francisco will be thrown on the screen. Views of Molokai, United States, England, Scotland, France, Russia and Japan will be comprised in the lot. Tickets for both lectures will be \$1 for reserved seats and 50 cents for others, and for single lecture half of those prices. The lectures will be for the benefit of the leper band of Molokai, to enable it to procure new instruments.

### TWENTY-ONE YEARS.

Sentence of the Malay Who Slew a Jap at Pahala.

At the term of the Third Circuit Court, just held at Waiohine, Kan, Hawaii, the Malay who killed a Japanese at Pahala plantation pleaded guilty to murder in the second degree. Judge Austin sentenced him to imprisonment at hard labor for twenty-one years.

Most of the important cases were continued to the Fourth Circuit term at Kohala, of which Judge Austin is also the presiding magistrate.

Deputy Attorney General A. G. M. Robertson is staying over on Hawaii for a short vacation.

Marshal Hitchcock is still unwell, and will continue so if people in Honolulu do not cease bothering him with unimportant letters.

Chester A. Doyle, Japanese interpreter, of all the court train returns to town to tell the tale.

### New Carpet Every Session.

With the meeting of every new congress a new carpet is placed upon the floor of the house of representatives. The carpet costs a snug little sum. It is one of the stipulations of the contract that the manufacturer shall not furnish the same design to anybody else, which is done so as to prevent bargain hunters being beguiled into buying carpets "just like congress uses." The old carpet is cut up and used in committee rooms, but, owing to the detestable habit of the average lawmaker in chewing tobacco, a good deal of it is worthless.

### Annexation at Moanalua.

The Moanalua Annexation Club, an organization entirely independent of any other, held a meeting yesterday evening. It filled the church to overflowing, women and children predominating. The meeting was opened with song and prayer. Speeches were made, after which there was talk about adopting a constitution and by-laws like other organizations. Finally it was decided to adopt the constitution and by-laws of the American League, and a committee was appointed to secure a copy and report on next Tuesday evening.

### Africans for Africa.

A debate between two distinguished American citizens of African descent at Atlanta, Ga., has resulted in the adoption of a resolution to the effect that "the Americans of African descent can never rise to full manhood in the United States, and that the redemption and civilization of Africa as the future home of the American of African descent is desirable."

### ROOMS AND BOARD.

ROOMS AND BOARD for a few persons can be had at Hanaui, on the Waikiki beach.

# National Cane Shredder

PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS.

Mr. John A. Scott, Manager of the Hilo Sugar Company, gives the following wonderful record of the working of the NATIONAL CANE SHREDDER, which was erected by their works at the commencement of the crop just harvested:

"During the past week the Hilo Sugar Company's mill exceeded any of its former records by closing the 125 hours grinding with an output of 5000 tons. This is fully 10 percent more than the best work of former years.

"The three roller mill being 26 in. by 54 in. and the two roller mill 30 in. by 60 in. The first mill doing this amount of work in an efficient manner and with great ease, compared with work on whole cane, owing to thorough preparation of the cane by the National Cane Shredder, recently erected by the Company.

"And by its use the extraction has been increased from 3 percent to 5 percent on all kinds of cane, and in some cases 80 percent has been reached; the average being 75 to 78 percent, according to quality.

"I continue to find the megass from shredded cane better fuel than from whole cane.

"The shredder has been working day and night for seven months and has given me entire satisfaction, having shredded during that time about seventy thousand tons of cane, and a large part of it being hard ratoons.

"The shredder and engine require very little care or attention."

Plans and specifications of these shredders may be seen at the office of
